### Hydropower Station Overhead Crane, Winch

The bridge crane of a hydropower station is mainly responsible for the installation, maintenance and overhaul of the key equipment of the hydro-generator set and its auxiliary systems, and its performance directly affects the installation accuracy of the hydro-generator set.

### Hydropower Station Gantry Crane

The gantry crane of a hydropower station is mainly used for lifting and opening and closing the gates, and can also be used for installation. The lifting speed is low, which is 1 to 5 meters per minute. The gantry cranes of hydropower stations are heavy and require high safety.
